

ESP-BAT-BT Controller

Increase Control. Decrease Site Visits.

Battery-Operated, Bluetooth® Irrigation... Evolved

Welcome to a new era of Bluetooth-enabled irrigation control. The BAT-BT offers greater visibility and total command over commercial sites with its unrivaled battery life, trouble-free installation, and streamlined operation via the Rain Bird mobile app. Decrease site visits and ensure worry-free irrigation management, even in the absence of AC power.

5-Year Extended Battery Life

BAT-BT uses AA/LR6 batteries for an extended battery life of up to five years. Rain Bird is proud to be the first irrigation manufacturer to harness the power of AA batteries for decreased battery waste and less site visits.

Next-Level Bluetooth Control

Superior commercial-level irrigation control programmed with your smartphone via the free Rain Bird mobile app. Make changes to the schedule even when out of Bluetooth range—and share settings with the entire team.

User-Friendly Operation

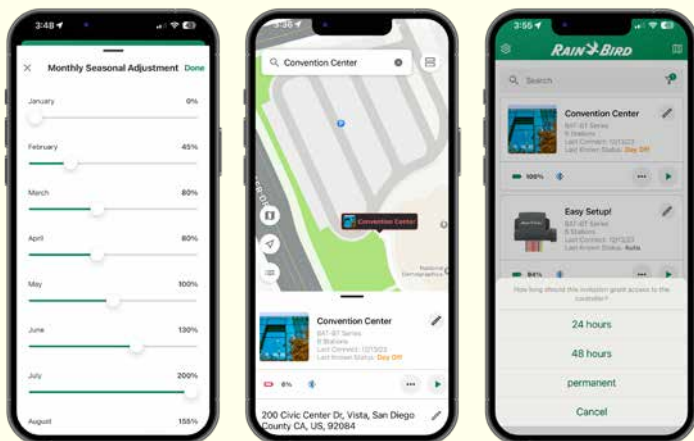

With flexible mounting options, a guided setup, a streamlined app experience, and industry-leading intelligence, BAT-BT promises “convenience” at every stage, from installation to operation.

Controller
Sharing

- **Monthly Seasonal Adjust (0% to 200%):** Ensure that watering changes with the seasons. Add seasonal adjustment values for each month a year in advance.
- **New Mapping Feature:** Get fast access to commonly used features and controller details.
- **Controller Share:** Streamline operations and share newly added devices, off-line updates and controller settings with the team so everyone stays up to date.

RAIN BIRD

- **Last Known Status:** Never forget whether a controller is set to Auto, Off, Rain Delay, etc.
- **Offline Mode:** View and make changes to the schedule even when out of range.
- **Rain Delay:** Pause irrigation up to 14 days, then automatically resume.
- **No-Water Days:** Exclude specific days of the week on a recurring basis.
- **Calendar Days Off:** Schedule 15 days per year for no irrigation.
- **Effortless Installation:** Multiple attachment options in valve box and guided setup on app.
- **IP68 Rated, Waterproof Design:** A waterproof case and sealed battery cap protect against dirt, dust and water—even if the valve box floods.
- **Convenient, Wireless Battery Pack:** Unscrew cap and pull the wireless battery tray out to remove and replace batteries in seconds.
